

Thank you for your interest

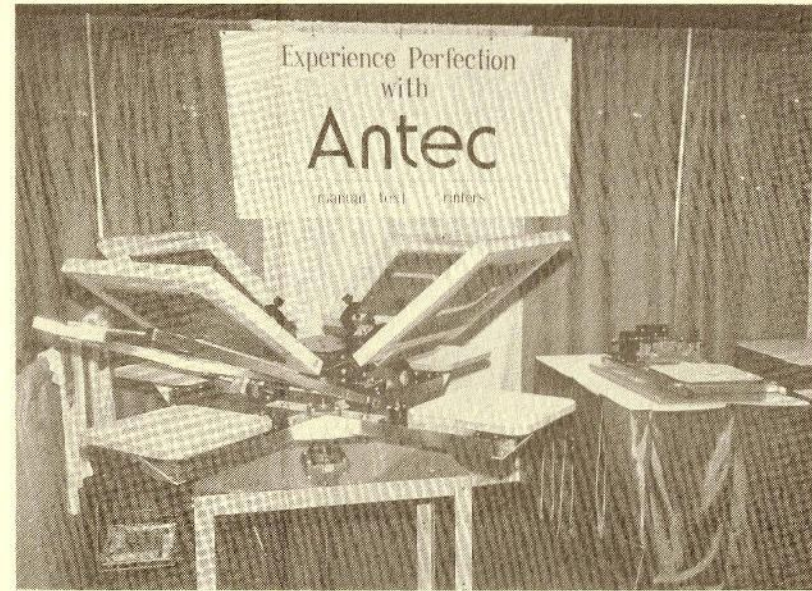

Antec continues to manufacture the finest line of manual printers available. The Antec 4 (shown) features -

- simultaneous printing (up to 4 stations at once)
- 4 rotary platens
- plexiglass slider guides (no shirt hang-ups during loading)
- ball handles at each platen (printer never touches shirt)
- micro-adjusts for registration set-up
- effortless operation due to ball-bearings reduces operator fatigue
- double acting spring system - allows two-handed printing
- nylon jacket tensioning device

Production Rates

- over 30 dz. single color prints per hr. employing 2 workers
- over 60 dz. single color prints per hr. employing 4 workers
- over 18 dz. four color prints per hr. employing 2 workers
